

StarSCAN^{*}

Versions

Current Release: **5.02-SP1**

Information, New Features and Capabilities

- **Network Update Release:**
 - This StarSCAN software release can only be retrieved via the Internet. A StarSCAN update CD **will NOT** be sent to your dealership for this release.
 - To update your StarSCAN diagnostic tool via the internet the StarSCAN has to be at version **5.02** and properly configured to your dealership's network. For information on properly configuring the StarSCAN's network settings visit www.dcctools.com and view the '**Training Aid**' labeled '**Network Setup**'.
- **WK ABS Initialize ECU Bug Fix**
 - The WK ABS Misc Function called "Initialize ECU" has been updated to work with all configurations of the ABS systems on WK.

Latest News

Updating Your StarSCAN Via the Network

Prior to updating your StarSCAN via the Network ensure you have the latest StarSCAN CD Release version installed on your StarSCAN. See the release notes above to see specific minimum version information.

To update your tool via the network you must have the StarSCAN properly configured to your dealership's network. For information on properly configuring the StarSCAN's network settings visit

www.dcctools.com and view the '**Training Aid**' labeled '**Network Setup**'.
